PR3: Legal and Financial Research

Launch of PR4:

Digital Environment for Incubation

GREEN FUTURE UPDATES

PR3 is complete and all partners have submitted the Financial and Legal Research for starting a business in France, Ireland, Spain, Italy and Poland.

There are three distinct areas addressed:

1. The procedure to establish a business
2. Obligations as a business owner
3. The penalties for non-compliance with legislation.

These modules will be available to those who register on the Green Future platform and in each of the partner country languages.

PR4, creating a digital environment, has commenced and will support the incubation process for entrepreneurs.
