

PR4 - GREEN CHECK TEST

The test consists of 10 questions to evaluate the "greenness" of a business. Each question represents a percentage equivalent to 10, for each positive answer.

The test is organized into 3 thematic areas:

1. Energy;
2. Products and Materials;
3. Organizational Solutions.

Energy			
1	Does the company make choices regarding Energy Efficiency? (for example, using products such as LED light bulbs that promise significant savings and/or unplugging machinery that is not in use)	yes	no
2	Does the company adopt solutions and strategies that aim at the use of renewable energies? (such as solar energy, wind energy, hydroelectric energy, geothermal energy)	yes	no
Products and Materials			
3	Are biodegradable or recycled materials used for packaging?	yes	no
4	Are there solutions in place to reduce the use of paper?	yes	no
5	Is the company plastic-free?	yes	no
6	Is it ensured that the materials used in the production chain are recognized as environmentally friendly?	yes	no
Organizational Solutions			
7	Is it planned for workers to carry out their work from home ("smart working") for at least 2 days per month?	yes	no
8	Is separate waste collection adopted?	yes	no
9	Are there actions to promote awareness of environmental sustainability among workers and customers?	yes	no
10	Is the company equipped (or in the process of equipping) with environmental management system ISO 14001 certification?	yes	no
